Warning: Do NOT use this product on broken skin or if you are pregnant or breastfeeding.

About the Product

Cryotherapy is a cold treatment technique employed by the Corps Ligneá Refreshing Massage Gel which causes a superficial vasodilatation – combating flaccidity and localized fat while relaxing the temperature of the skin to maintain the thermal balance.

The efficacy of the product was clinically evaluated and showed improvement in all items evaluated related to Ginoíd lipodystrophy (cellulitis).

- Scientifically proven results
- Tested and approved by users
- Clinically tested.
- Dermatologically tested.
- Formula tested by real consumers like you:
- 77% of the survey participants perceived that the treatment reduced measures.
- 76% of survey participants felt that the treatment helped reduce body fat.

Corps Ligneá Refreshing Massage Gel is a gel specifically developed to aid in the burning of localized fats. Corps Ligneá Modeling Gel contains Camphor and Menthol which produce a pleasant sensation of freshness and warmth at the same time. This synergistic combination of Camphor and Menthol is also responsible for improving peripheral vasodilation and activating the drainage of toxins.

Easy to apply, it can be left on the skin without greasing the fabric of the garment. Ideal for aesthetic improvement, it combats localized fat, and remodels the body.

Benefits:

1. Helps in the burning of localized fats from the abdominal region, arms, and thighs.
2. Reduction of measures
3. Cooling cryogenic effect
4. Reduces cellulite and stretch marks.

Gender: Unisex – Can be used by both male and female

How to Use

Apply a thin layer of the gel on the abdominal region and massage gently with circular motion. On the arms and thighs, massage gently with an upward and downward movement. Leave it to act for 30 to 40 minutes.

Use daily until results are achieved. In order to improve the effectiveness of the gel, it is recommended that you do physical exercises after each application.

Ingredients: Aqua, Alcohol, Camphor, Propylene Glycol, Triethanolamine, Carbomer, Menthol, Phenoxyethanol, Ethylhexylglycerin.
